2.Memorandum No.4394/52.1-Public (Election) Department dated 9/9/52.

---

In continuation of my reference first cited above, I submit the following facts for your consideration and orders.

In the reference second cited above it is ordered that in respect of persons whose names are newly added in the National Register of Citizens their age should be recorded in terms of completed years as on 1/9/52. It is also ordered that the age of such persons as on 1/3/52 should be taken to decide whether ~~are~~ or not such persons are eleigible to be included inthe Electoral Rolls. In respect of new names added in the National Register of Citizens whose age is noted by the enumerators as 21 years ( as on 1/9/52) difficulty will be experienced at the time of writing up App. V. of the booklet "INSTRUCTIONS TO ENUMERATORS" unless, the enumerators have noted in Col. 17 of the National Register of Citizens the age of such persons as on 1/3/52. It is now here stated that this information should be so recorded in the National Register of Citizens. To obviate ~~their~~ this difficulty, I humbly suggest that all the enumerators may be asked to note the age of persons whose names are newly added in the National Register of Citizens as normal residents of any household should be in terms of completed years as on 1/3/52. Alternatively the enumerators may be asked to note in Col. 17 of National Register of Citizens the age of such persons as on 1/3/52, inaddition to noting their age as on 1/9/52 in Col. 7 of the National Register of Citizens.

Electoral Rolls M.L.A & House of the People
Annual Revision, 1952 -

Ref:- From the Tahdr, Bellary Re.no:4107/52, E dt. 16/9/52

The attention of the Tahdr, Bellary is invited to the instructions under column (7) on P.12 of the Printed "Instructions to Enumerators" and he is informed that there will be no difficulty for the preparation of the list of additions to, deletions from and corrections to the Electoral Rolls by the enumerators as the date, month and year of birth in respect of additional names added to the households as expected to be noted in Col (7) of the N.R.C. The enumerators can easily include the names of persons who have completed 21 years on 1.3.52 by verifying the date of birth entered in col (7) of the N.R.C in respect of additional names added to the households
